PERMANENT MAKE-UP AFTER CARE

TAKE NOTE : After all Permanent Make-Up procedures the colour will be very extreme and vibrant until the healing process is complete. It is normal for areas to lose colour and fade with time, Perfection and durability will be achieved on the touch up procedure.

MICROBLADING EYEBROWS

- No water, cleansers, creams, make-up or any other products on the treated area for 10 days.
- For the first 24 hours wipe your eyebrows with nice pressure every 1-2 hours using a damp cotton pad or a baby wipe (no make-up remover wipes).
- Apply your ointment every morning and evening for 10 days (do not use too much, only seal the area, this will allow the skin to still breathe).
- Avoid heavy sweating for the first 10 days.
- Avoid direct sun exposure or tanning for 3-4 weeks after the procedure.
- DO NOT pick, rub or scratch the treated area. Let any scabbing or dry skin naturally exfoliate off. Picking can cause pigment loss, scarring, and delayed healing.
- NO facials, botox, chemical treatments or microdermabrasion within 4 weeks.
- PLEASE NOTE: Eyebrows will appear darker and bolder due to natural scabbing and healing for the first 10 days. This is very common for all permanent cosmetic procedures.

SHADING EYEBROWS

- No water, cleansers, creams, make-up or any other products on the treated area for 10 days.
- For the first 24 hours wipe your eyebrows with nice pressure every 1-2 hours using a damp cotton pad or a baby wipe (no make-up remover wipes).
- Apply your ointment every morning and evening for 10 days (do not use too much, only seal the area, this will allow the skin to still breathe).
- Avoid heavy sweating for the first 10 days.
- Avoid direct sun exposure or tanning for 3-4 weeks after the procedure.
- DO NOT pick, rub or scratch the treated area. Let any scabbing or dry skin naturally exfoliate off. Picking can cause pigment loss, scarring, and delayed healing.
- NO facials, botox, chemical treatments or microdermabrasion within 4 weeks.
- PLEASE NOTE: Eyebrows will appear darker and bolder due to natural scabbing and healing for the first 10 days. This is very common for all permanent cosmetic procedures.

EYELINER

- NO water, cleansers, creams, make-up or any other products on the treated area for 5 days.
- Apply your ointment twice a day with a cotton bud. Avoid touching area with fingers.
- Eyes may be swollen use an ice bag to relieve swelling if needed or drink an antihistamine tablet.
- Do not use mascara until outer healing is complete (3-5 days).
- DO NOT pick, rub or scratch the treated area. Let any scabbing or dry skin naturally exfoliate off. Picking can cause pigment loss, scarring, and delayed healing.
- Eyes may be dry or irritated, a lubricating refresher eyedrops may be used.

PLEASE NOTE: Eyeliner will appear darker and bolder due to natural scabbing and healing, allow area to naturally exfoliate. Within 3-5 days the eyeliner will be finer and lighter. This is very common for all permanent make-up procedures.

LIP LINER & FULL LIP COLOURING

- No water, cleansers, creams, make-up or any other products on treated area for 5 days.
- Avoid direct contact with toothpaste and mouthwash as it contains bleaching agents.
- Lips may be swollen use an ice bag to relieve swelling if needed or drink an antihistamine tablet.
- During healing process, 5- 7 days apply ointment with a cotton bud when dry.
- Eat carefully and drink with a straw the first 24 hours.
- Do not apply any topical cosmetics over the treated area.
- For the next 3 days, blot area lightly if fluid occur.
- Continue anti-viral treatment for 5 days if you are prone to fever blisters (herpes simplex).
- When scabbing occurs allow to peel off naturally, do not pick or pull as it will influence colour retention.

PLEASE NOTE: Lip Liner and Full Lip colouring will appear darker and bolder, allow area to naturally exfoliate. Colour will fade up to 60% depending on skin type, within 2 weeks. The final results will only be visible after 4 weeks.
